GO IT

CERTIFICATE

Dmytro Mykytiuk

Has successfully completed

PYTHON DEVELOPER

course at GoIT

05/10/2022

Unique ID 14774

PYTHON

goit.global

CEO of GoIT

Anton Chornyi

Supplement to Python Developer course certificate

General information

Soft Skills
2 classes, **4** hours

Python Core
24 classes, **48** hours
12 assignments on Tech Skills

Python Web
32 classes, **64** hours
16 assignments on Tech Skills

Data Science
24 classes, **48** hours
12 assignments on Tech Skills
1 class, **2** hours
3 assignments on Career Skills
3 team projects

Python core units

Unit 1. Data Types in Python
Unit 2. Control structures. Exceptions
Unit 3. Functions.
Unit 4. Data structures
Unit 5. Advanced work with strings
Unit 6. Work with files
Unit 7. Creating and installing custom packages, virtual environment
Unit 8. Work with date and time. Collections. Comprehensions
Unit 9. Functions. Decorators. Closure. Carrying
Uni 10. OOP. Basics of working with classes
Unit 11. OOP. 'Magic' class methods
Unit 12. Serialization and copy objects

GO IT

Python Web units

Unit 1. Managing the creation of class instances. Metaclasses
Unit 2. SOLID and Design Patterns
Unit 3. Python Deployment. Pipenv. Docker
Unit 4. Multithreading in Python
Unit 5. Multiprocessing in Python
Unit 6. Asynchronous programming in Python
Unit 7. Web fundamentals
Unit 8. Relational databases. Postgres
Unit 9. ORM SQLAlchemy
Unit 10. NoSQL databases. MongoDB. Redis.
Unit 11. Web frameworks, FLASK
Unit 12. Basics of working with AIOHTTP
Unit 13. Fundamentals of working with Django
Unit 14. Web-scraping. Beautiful Soup. Scrapy
Unit 15. Building a REST API with FastAPI
Unit 16. Development Tools. Testing web applications. Unittest. Pytest. Sphinx

Data Science units

Unit 1. NumPy Library
Unit 2. Pandas Library
Unit 3. Data visualization. Matplotlib. Seaborn
Unit 4-5. SciPy library
Unit 6. PySpark Big Data
Unit 7-8. Machine learning with Scikit-learn
Unit 9. Deep learning with TensorFlow
Unit 10-12. Deep learning with Keras
